MINISTRY OF FINANCE

December 30, 2004

Public Finances and Public Debt Report November, 2004

The Ministry of Finance released today the Public Finance and Public Debt results for November 2004. It is worth highlighting the following:

- The public sector balance registered a small deficit which is in line with the deficit target authorized by Congress for the year.
- The primary balance, defined as total revenues minus expenditures other than financing costs, recorded a surplus of Ps. 13.1 billion.
- Budgetary revenues posted a real annual increase of 4.3 percent, mainly due to increases in oil-related revenues and revenues of public entities other than PEMEX of 22.9 and 14.4 percent, respectively.
- Net budgetary expenditures increased 7.8 percent in real terms. The increase resulted from advance payments to the Trust for Infrastructure in States (Ps. 2.0 billion) and to the Oil Stabilization Fund (Ps. 3.8 billion), derived from the expected excess revenues for the year.
- The public sector net external debt balance increased by US\$0.5 billion, while the net domestic debt balance of the Federal Government fell by Ps. 7.8 billion, both figures with respect to October 2004

1. Public Sector Balance in January-November 2004

- The public sector surplus at the end of November amounted to Ps. 70.2 billion, this amount compares favorably with the surplus of Ps. 53.6 billion observed for the same period of 2003.
- In the same period, the primary surplus was Ps. 260.8 billion, which is 5.1 percent higher in real terms, than that observed in the first eleven months of 2003.

1.1 Public Sector Budgetary Revenues in January-November 2004

- The public sector's budgetary revenues for the period January-November 2004 were Ps. 1,592.9 billion. This figure is 4.6 percent higher in real terms than that registered in the same period of 2003.

**BUDGETARY REVENUES,
JANUARY-NOVEMBER**
(Billions of 2004 pesos)

- Non-oil related tax revenues amounted to Ps. 657.9 billion, 0.6 percent higher than those received in January-October 2003. Within these revenues it is important to highlight that income tax collection declined by 2.5 percent, while value added tax collection increased 7.5 percent, both in real annual terms.
- Oil related revenues, which include PEMEX's own revenues, oil related royalties and fees, and the excise tax collection on gasoline and diesel totaled Ps. 573.5 billion. The accumulated oil related revenues in the first eleven months of 2004 are 14.2 percent higher than those registered in the comparable period of 2003.
- Non-tax non-oil related revenues were Ps. 83.4 billion in the period January-November. This figure is 11.4 percent lower in real terms than in the same period of 2003.
- Revenues of public entities under direct budgetary control other than PEMEX were Ps. 278.1 billion, which represents a 2.2 percent increase over the same period of 2003.

1.2. Net Public Sector Expenditures during January-October 2004

- Net budgetary expenditures of the public sector totaled Ps. 1,522.3 billion, which is 3.7 percent higher in real terms than the comparable expenditure registered a

year earlier. This result includes the advance payments to the Trust for Infrastructure in States (FIEs) (Ps. 14.2 billion), Fees for infrastructure works in PEMEX (Ps. 12.5 billion) and the Oil Stabilization Fund (PS. 7.8 billion). These advance payments are made based on the estimated excess revenues for the year.

**NET BUDGETARY
EXPENDITURES, JANUARY-NOVEMBER**
(Billions of 2004 pesos)

- Programmable expenditures totaled Ps. 1,093.6 billion. The figure is 3.5 percent higher in real terms than that carried out on the same period of 2003.
- Federalized expenditures increased 6.7 percent in real terms. It is worth highlighting the following:
 - Revenue Sharing to States and Municipalities amounted to Ps. 202.3 billion, which is 5.4 percent higher than the amount registered in the same period of the previous year.
 - The sum of transfers to States and Municipalities (Ramo 33), provisions for basic, traditional, technical, and adult education (Ramo 25), and resources directed towards the strengthening of States through PAFEF (Ramo 39) increased 7.6 percent in real annual terms and amounted to Ps. 286.3 billion.
- The Public Sector's financing costs totaled Ps. 176.8 billion. The financing cost has fallen 4.3 percent in real terms, compared to the same eleven months of 2003.

2. Public Debt Update

- At the end of November, the net balance of the external public debt was US\$78.6 billion, US\$1.6 billion higher than that observed at the end of 2003. The result derives from a decline in indebtedness of US\$1.8 billion, upward accounting adjustments of US\$1.8 billion, and a decline in financial assets abroad of US\$1.6 billion. In this manner, the evolution of the external debt is consistent with the target of reducing indebtedness by US\$500 million by yearend, which was approved by Congress.
- The net debt balance of the Federal Government's domestic debt was Ps. 968.3 billion at the end of November. This figure is Ps. 41.2 billion higher than

that registered at the end of 2003. This change is the result of net borrowings of Ps. 80.9 billion, upward accounting adjustments to inflation indexed debt of PS. 6.0 billion, and an increase in the Federal Government's financial assets of Ps. 45.7 billion.
