

PUBLIC FINANCE AND PUBLIC DEBT REPORT, JULY 2012

The public finance and public debt preliminary results as of July 2012 were released today.

The main results for the January-July period are the following:

- The total deficit of the Public Sector was Ps. 201.0 billion. Excluding investment by PEMEX a deficit of Ps. 54.8 billion is observed. These results are consistent with the approved budget deficit for the year.
- Budgetary revenues were higher by 9.9% in real annual terms. Revenues of public entities under direct budgetary control other than PEMEX, oil revenues and non-oil tax revenues increased by 16.0, 11.4, and 2.9%, respectively.
- Net expenditures were higher by 10.1% in real annual terms. Programmable expenditures increased by 11.6% in real terms.
- Federal resources transferred to federal entities and municipalities increased by 3.7% in real terms. Shared revenues grew by 1.0% in real terms. Adjusting the base of comparison by the effect of the elimination of the vehicle ownership tax, the increases would be 5.4 and 5.1% in real terms, respectively.
- The Federal Public Sector's net domestic debt increased by Ps. 233.9 billion while **the Federal Public Sector's** net external debt increased by USD 8.3 billion, both with respect to the end of 2011.

Evolution of the Public Finances during January-July

As of July 2012, the Public Sector posted a deficit of Ps. 201.0 billion. The primary balance posted a deficit of Ps. 18.9 billion. If investment by PEMEX is excluded, the public balance shows a deficit of Ps. 54.8 billion. These results are consistent with the approved deficit for 2012, in compliance with Article 17 of the Federal Budget and Fiscal Responsibility Law.

Public Sector Budgetary Revenues during January-July

The Public Sector's **budgetary revenues** were Ps. 2,020.4 billion, amount 9.9% higher in real annual terms. The evolution of the main components of budgetary revenues was the following:

**BUDGETARY REVENUES,
JANUARY-JULY**
(Billion pesos of 2012)

- Non-oil tax revenues were Ps. 891.7 billion, growing by 2.9% in real annual terms. The moderate expansion is mainly explained by the elimination of the vehicle ownership tax. By adjusting collections for this effect, non-oil tax revenues increased by 4.2% in real terms. Collections from the VAT, taxes on imports and the income tax (including the IETU and the Tax on Cash Deposits) increased by 5.9, 5.9 and 3.1% in real terms, respectively.
- Oil related revenues –which include **PEMEX’s own revenues, excise tax** collection on gasoline and diesel, royalties and fees, and taxes on oil returns – totaled Ps. 681.7 billion, increasing by 11.4% in real annual terms. This result is explained mainly by the higher price of the Mexican oil mix (105.3 dpb compared with 96.7 dpb observed in the same period of last year), that was partially offset by a lower price of natural gas by 37.0%, a higher value of hydrocarbon imports by 3.7% in real terms and a lower oil production platform by 1.0%, all with respect to the same period of 2011.
- Revenues of public entities under direct budgetary control other than PEMEX were Ps. 340.4 billion, which represents an increase of 16.0% in real annual terms. This

is mainly explained by higher revenues from electricity sales, higher social security contributions and other revenues.

- Non-tax non-oil revenues totaled Ps. 106.6 billion, amount higher by 61.1% in real annual terms due to higher non-recurrent revenues and royalties than those observed last year.

Net Budgetary Public Sector Expenditures during January-July

During the first seven months of the year, net budgetary expenditures of the Public Sector totaled Ps. 2,224.2 billion, amount higher by 10.1% in real annual terms.

**BUDGETARY NET EXPENDITURES,
JANUARY-JULY**
(Billion pesos of 2012)

Paid programmable expenditures totaled Ps. 1,732.4 billion, amount higher by 11.6% in real annual terms. Within, worth highlighting are the expenditures allocated to the communications; economic, trade and labor; and energy and healthcare sectors.

Resources transferred to federal entities and municipalities through shared revenues, federal contributions, decentralization agreements and reallocations increased by 3.7% in real terms. Shared revenues increased by 1.0% in real terms and the remainder of the resources transferred to the governments of federal

entities and municipalities increased by 5.7% in real annual terms. Adjusting the base of comparison by the effect of the elimination of the vehicle ownership tax, resources transferred to federal entities and municipalities and shared revenues would increase by 5.4 and 5.1% in real terms, respectively.

The Public Sector's financial cost was Ps. 172.6 billion, amount higher by 12.5% in real annual terms due to the depreciation of the exchange rate and changes in the seasonality of PEMEX's debt service.

The stock of the Federal Public Sector's net external debt was USD 121.9 billion, amount that is higher by USD 8.3 billion than the one registered at the end of 2011. This result is explained by net indebtedness of USD 7.5 billion, downward accounting adjustments by USD 0.6 billion and the use of financial assets by USD 1.3 billion.

More details on public finance and public debt statistics can be obtained in the Ministry of Finance's web page at:

<http://t.co/pmRnBb1>

Stock of Public Debt as of July

The Federal Government's net domestic debt balance as of July was Ps. 3,304.5 billion, amount Ps. 192.4 billion higher than that observed at the end of 2011. The change in the stock is explained by net indebtedness of Ps. 256.3 billion, upward adjustments to the inflation indexed debt by Ps. 17.1 billion and an increase in the Federal Government's financial assets by Ps. 81.0 billion.

The stock of the Federal Government's net external debt at the end of July was USD 65.0 billion, amount USD 5.4 billion higher than the one observed at the end of 2011. This result is explained by a net indebtedness of USD 4.4 billion, downward accounting adjustments by Ps. 0.3 billion and a decrease in domestic financial assets by Ps. 1.3 billion.

The stock of the Federal Public Sector's net domestic debt (Federal Government, PEDBC's and development banks) at the end of July was Ps. 3,492.4 billion, which implies an increase of Ps. 233.9 billion with respect to the stock recorded at the end of 2011. This is due to net domestic indebtedness during the period of Ps. 260.7 billion, upward accounting adjustments by Ps. 17.9 billion and an increase in domestic financial assets by Ps. 44.7 billion.
