Quarterly Government Securities Auction Calendar

2022 First Quarter

Government Securities Auction Calendar

The Ministry of Finance and Public Credit (SHCP, by its acronym in Spanish) announces the government securities auction calendar corresponding to the First Quarter of 2022 (1Q 2022) effective as of Tuesday, January 4th, 2021.

2022

The auction calendar is part of the Annual Financing Plan and is consistent with the Economic Package approved by the H. Congress of the Union for 2022 fiscal year and with General Law of Public Debt.

Government Securities Auction Calendar

CETES

For **CETES**, the auction program keeps the ranges to be auctioned unchanged with respect to the previous quarter for all terms and thus meet the seasonality of the Federal Treasury's cash flow and the market liquidity conditions.

BONDES F

This quarter, **BONDES F** of 1, 2 and 3 years will be auctioned in a weekly basis. The communicating vessel mechanism will be used for 2 and 3 years. The 5-year will be auctioned in a biweekly basis. Also, SHCP will inaugurate auctions of 7-year **BONDES F** each six weeks.

M BONDS

The auction frequencies of all securities are modified and the average amount to be auctioned increases in 10, 20 and 30 years compared to 4Q 2021. The **M BOND NOV42** will be the new 20-year reference.

UDIBONOS

The **UDIBONOS** will be auctioned maintaining their periodicity and the average amount auctioned will increase in all nodes of the curve.

The ranges will remain between 5 to 20 thousand (mp) weekly for all terms. The first auctions of 2022 will have increases in all terms, in order to face major cash flows of Federal Treasury. Once this period has finished, SHCP will seek to progressively normalize issuance of CETES in all terms.

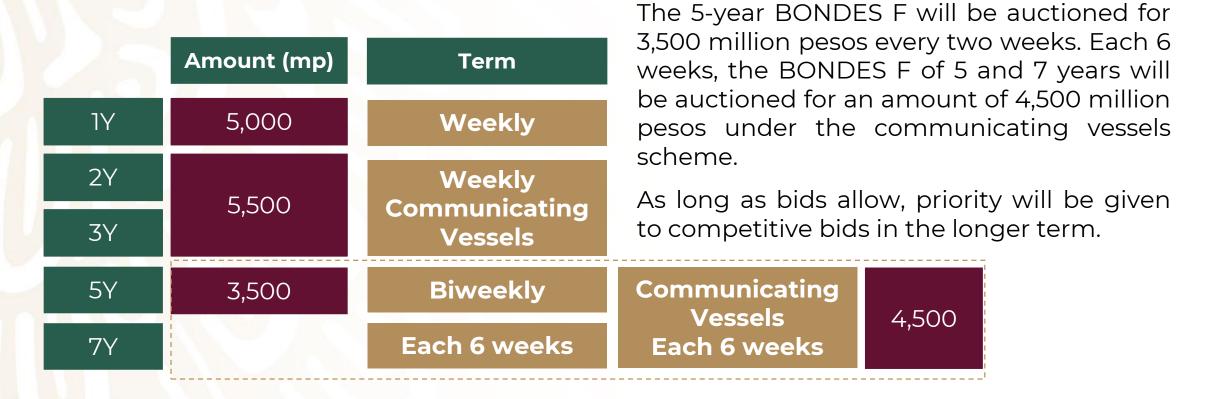

The amount to be placed in the following CETES auctions will be declare in the respective announcement through Banco de Mexico.

Securities	Term	Range 1T 22 (mp)	Range 4T 21 (mp)	Δ 1Q 22 VS 4Q 21		
Cetes 28						
Cetes 91	\M/oold\v	min 5,000	min 5,000	No Chango		
Cetes 182	Weekly	max 20,000	max 20,000	No Change		
Cetes 364						

The amount to be auctioned for 1-year will be 5,000 million pesos per week. For BONDES F with a term of 2 and 3 years, the scheme of communicating vessels will be maintained with a fixed weekly amount to be auctioned of 5,500 million pesos.

México 2021 Año de la Independencia

It will be **increases** in longest references. The terms of 3 and 5 years will be auctioned every 5 weeks (previously every 4 weeks). The 10, 20 and 30 year terms will also be auctioned every 5 weeks (previously every 6 weeks).

Liability Management

The SHCP will be open to using the tools at its disposal to fulfill its complementary objectives to the auction calendar:

1	Preserve the right functioning of market
2	Smooth portfolio maturity profile
3	Improve efficiency of debt portfolio
4	Strengthen liquidity of actual issuances

Special operations will be sought during 1Q 2022, as long as market conditions are favorable.

Syndicated Auctions and Auction Modifications

The SHCP will be attentive to market conditions and if any of these operations are carried out, the SHCP will announce the respective call through the Bank of Mexico.

The SHCP reiterates its commitment to preserve the stability of the economy and the proper functioning of the local debt market. The SHCP will be attentive to the evolution of the financial markets to take the necessary measures to ensure their proper functioning.

In case of any modification to the Government Securities Auction Program is necessary, the SHCP will inform the market in a timely manner.

Preserve the stability of economy and local debt market

Debt Issuance by Banco de México

Bondes F:

During the first quarter of 2022, Banco de México will not be auctioning Bondes F on a weekly basis.

Cetes:

During the first quarter of 2022, Banco de México will not renew any Cetes maturities for the aforementioned period; thus, no extraordinary auctions of said instruments will be announced.

Debt Exchange Auctions:

Alternatively, Banco de México, acting on its own behalf, could execute debt exchange auctions of Government securities during the first quarter of 2022. The purpose of these operations would be to smooth out the monetary effect of maturing Government securities and thus improve the efficiency of liquidity operations that the Central Bank carries out in the money market on a daily basis. The details of these auctions would be specified in each offering announcement. These debt exchange auctions would also be subject to financial markets conditions.

Debt Issuance by Banco de México

<u>Simultaneous operations for the purchase of Bondes D issued for monetary policy purposes and sale of Bondes F issued by the Federal Government:</u>

Finally, Banco de México will analyze any developments in local financial markets and could execute additional simultaneous buy-and-sell operations of FRNs during the upcoming quarter. Banco de México would carry out these operations in compliance with the provisions set out by the law, and in coordination with the Ministry of Finance.

These actions are neutral from the standpoint of Banco de México's monetary policy stance and do not have implications on the Overnight Interbank Interest Rate.

IPAB's 2022 1st Quarter Auction Program

In accordance with the 2022 Annual Financing Program approved by the Governing Board of the Institute for the Protection of Bank Savings (IPAB), the Institute informs that for the first quarter of 2022, the weekly objective amount of Savings Protection Bonds (BPAS) remains unchanged with respect to the fourth quarter of 2021, as follows:

- 1,500 million pesos (mp) for the 3 year BPAG28 (IM);
- 1,500 mp for the 5 year BPAG91 (IQ); and
- 1,200 mp for the 7 year BPA182 (IS).

Thus, the weekly target amount to be auctioned by the IPAB will be 4,200 mp. This program is consistent with the objective of keeping IPAB's liabilities from growing in real terms.

Petróleos Mexicanos

- Petróleos Mexicanos' (Pemex) financing program for 2022 is consistent with what was authorized by its Board
 of Directors and the Mexican Congress, which allows an internal net indebtedness of up to 27.2 billion pesos.
- Pemex has implemented a financial efficiency strategy in line with its Business Plan. During 2022, the internal financing program will maintain flexibility to adapt to the prevailing conditions in the financial markets, keeping a balance between risk and cost.
- For the first quarter of the year, the company may consider carrying out new issuances, reopening outstanding bonds or execute liability management transactions to improve the company's liquidity and the price discovery process. Pemex will remain sensitive to the market volatility and to investors' appetite, looking for the best market conditions possible.
- In addition to the issuance of bonds in the debt capital markets, the financing strategy could be complemented with credit lines or revolving credit facilities either in a bilateral or syndicated format. The company may refinance this type of financing sources during the year to strengthen Pemex's financial position.

Petróleos Mexicanos

- Any issuance carried out by Pemex in the local markets will be performed through the communicating
 vessels mechanism in different formats, such as variable rate, nominal fixed rate and real fixed rate. The
 amount and issuance dates will be available through the offering announcements.
- The company will continue with the Market Makers program and for any potential transactions the performance of all financial institutions within this program will be considered.
- Finally, local-currency denominated bonds could be settled through international clearing houses to increase Pemex's investor base and to strengthen the demand for Pemex securities.
